NG

NIURBELIS GONZALEZ
COMPUTER SCIENCE

OBJECTIVE

Computer Science student born and raised within an artistic environment and a passion for computers. My objective is to combine my artistic roots with my programming skills and become a Front-End Developer, delivering beautiful but efficient designs and websites.

SKILLS

HTML, CSS, JavaScript, Bootstrap, C, C++, Java, SQL, Github, Wordpress, Data-Structures, UI/UX Design, Adobe Dreamweaver, Adobe Photoshop, Prototyping tools such as Adobe XD and Figma.

EXPERIENCE

TO-DO LIST WEB APP – SHELLHACKS HACKATHON 2020
Hands on a full stack web application that involved login authentication to access a private to-do list for students. My responsibilities included the design of the app as well as the front-end implementation. I was exposed to back end technologies such as Node.js and MongoDB.

COLLEGEWARES APP – SOFTWARE ENGINEERING COURSE PROJECT
Exposure to software development using Agile methodology. My title was Object Designer where I took charge of ensuring that the interface reflected the functionality assigned to the subsystem. My duties were not limited to creating Use Cases and Object, Class, and Sequence Diagrams.

EDUCATION

HIGH SCHOOL DIPLOMA • 06/2016 • MIAMI CORAL PARK SENIOR HIGH
Graduate with 3.7 GPA. Spanish Honor Society member. First time hand-on basic web design such as Dreamweaver and HTML.

A.A COMPUTER SCIENCE • 05/2019 • MIAMI-DADE COLLEGE
Graduated with 3.8 GPA. Obtained skills such as C++ and Java programming.

B.S COMPUTER SCIENCE • TO DATE • FLORIDA INTERNATIONAL UNIVERSITY
Polish Java and C programming skills. Acquired knowledge about data structures & algorithms, computer architecture, operating systems as well as databases like PostgreSQL and Microsoft SQL. Member of UPE.
